METHOD OF MANUFACTURING UNVULCANIZED ADHESIVE
WATERPROOF SHEET AND
CONSTRUCTION METHOD USING THE SAME

This application relies for priority upon Korean Patent
5 Application No. 1999-50626, filed on November 15, 1999, the
contents of which are herein incorporated by reference in their
entirety.

FIELD OF THE INVENTION

10 The present invention generally relates to a method for
manufacturing of an unvulcanized adhesive waterproof sheet and
a construction method using the sheet. Particularly, the present
invention relates to a method of manufacturing an unvulcanized
adhesive waterproof sheet for waterproofing of a cut and cover
15 tunnel, an underground building structure, or a concrete structure
such as a building wall or an underground driveway. And,
particularly, the present invention relates to a construction method
using the sheet.

20 BACKGROUND OF THE INVENTION

As civil and construction technologies have progressed,
complex and difficult construction methods can now easily be
accomplished. However, defects often occur in waterproof
construction situations. The defects cause water leakage and
25 flooding. Moreover, the defects can cause a completed structure
